🔄 Pavan Kumar

👤 about me

Motivated Computer Science student with solid programming fundamentals and project-based experience. Strong analytical and logical thinking skills, eager to learn and grow in a challenging technical environment.

🧠 Skills

soft-skills

Problem Solving, Analytical Thinking ,Continuous Learning, Team Collaboration, Adaptability

programming

C,python

Web design

HTML,CSS,Javascript,react

🎓 Education

08/2023 – Present

Mysuru

Bachelor of Engineering [CSE]

Maharaja Institute of Technology, Mysore ✨
CGPA:8.3

2021 – 2023

Mandya

Pre-University Course

HDK PU College Besagarahalli
Percentage(%):86.66

🌐 Languages

- English
- kannada
- Hindi

- Telugu

🔑 Interests

- gaming
- Traveling
- farming
- Reading

📁 Projects

11/2025 – 12/2025

Pneumonia Detection

Developed a pneumonia detection system using deep learning to classify chest X-ray images as pneumonia or normal. Implemented data preprocessing, model training, and evaluation using Python, CNN, TensorFlow/Keras, OpenCV, NumPy, and Pandas, enabling accurate and automated medical image analysis to support early diagnosis.

02/2026 – 03/2026

Role-based Academic Database Management System

Developed a Role-Based Academic Database Management System using the MERN stack to manage student, faculty, and administrative records efficiently. Implemented secure role-based authentication and authorization to control access for different users such as admins, faculty, and students.

08/2025 – 09/2025

Cow database management system

Built a web-based Cow Database Management System using the MERN stack to manage cattle records including health, vaccination, and breeding details. Implemented a responsive React frontend, RESTful APIs with Node.js and Express, and MongoDB for secure and scalable data storage.

Achievements & Extracurricular Activities

27/03/2026 –

MITM XYPHER Hackathon 2026

28/03/2026

1st Runner-up

Mysore

Demonstrated strong analytical thinking, problem-solving, and teamwork skills while building and presenting a functional prototype within a competitive, time-constrained environment.

23–10–2025 – 24–10–
2025

NMIT Sparklab Designathon 2025

1st Runner-up

Bengaluru

National-Level Designathon Event organized by NMIT Sparklab 2K25, where we are presenting our design today. In this competition, we have designed an innovative model focused on reducing food waste in society through sustainable and technology-driven solutions.

Certificates

AWS Cloud Practitioner Essentials

an online non-credit course authorized by AWS and offered through Coursera

Cyber Security Technologies

an online non-credit course authorized by Illinois Tech and offered through Coursera

Developing Front-End Apps With React

an online non-credit course authorized by IBM and offered through Coursera
