👤 about me

Computer Science Engineering student passionate about Artificial Intelligence, Machine Learning, Data Analytics, and Generative AI. Experienced in developing AI-powered applications, building full-stack web solutions, and analyzing data using Python and SQL. Strong analytical and problem-solving skills with a commitment to creating impactful, intelligent, and scalable solutions.

🎓 Education

08/2023 – Present Mysuru	Bachelor of Engineering [CSE] <i>Maharaja Institute of Technology, Mysore</i> 🏡 CGPA:8.3
2021 – 2023 Mandya	Pre-University Course <i>HDK PU College Besagarahalli</i> Percentage(%):86.66

🧠 Skills

programming C ,Python, HTML, CSS, SQL	AI & Machine Learning Machine Learning Deep Learning Generative AI
soft-skills Analytical Thinking Problem Solving Team Collaboration Communication Adaptability Continuous Learning	Data Analytics & Visualization Pandas NumPy Matplotlib Data Visualization

📁 Projects

11/2025 – 12/2025	Pneumonia Detection <i>Python TensorFlow Keras OpenCV</i> Developed a deep learning model to classify chest X-ray images for pneumonia detection using CNN-based image classification and preprocessing techniques.
02/2026 – 03/2026	Role-based Academic Database Management System <i>MERN Stack MongoDB Express.js React.js Node.js</i> Built a web-based cattle management system to maintain health, vaccination, and breeding records with secure data storage and an intuitive user interface.
06/2026 – Present	REAL-TIME ROAD HEALTH MONITORING AND PORTHOLE DETECTON <i>React.js FastAPI TensorFlow SQLite</i> Developed an AI-powered web application for real-time pothole detection and road damage reporting using image analysis, GPS location extraction, and complaint tracking.

Languages

- English
- kannada
- Hindi
- Tamil
- Telugu

Interests

- gaming
- Traveling
- farming
- Reading

Certificates

- AWS Cloud Practitioner Essentials 
- Cyber Security Technologies 
- Developing Front-End Apps With React 
- Applied Machine Learning in Python 

Achievements & Extracurricular Activities

27/03/2026 – 28/03/2026 Mysore	MITM XYPHER Hackathon 2026 <i>1st Runner-up</i> Demonstrated strong analytical thinking, problem-solving, and teamwork skills while building and presenting a functional prototype within a competitive, time-constrained environment.
23–10–2025 – 24–10– 2025 Bengaluru	NMIT Sparklab Designathon 2025 <i>1st Runner-up</i> National-Level Designathon Event organized by NMIT Sparklab 2K25, where we are presenting our design today. In this competition, we have designed an innovative model focused on reducing food waste in society through sustainable and technology-driven solutions.
